

As a follow-up to yesterday's message, Baltimore County announced this evening that it has changed its position and will be following the state's re-opening plan for outdoor pools, including the limitations and requirements imposed under the state plan. The Board is diligently working to implement the state requirements for physical distancing, capacity limits, and sanitation protocols. We will assess our progress at the end of this weekend and hope to announce our opening date early next week. We will also be sending additional information next week regarding the new scheduling process for visiting the pool, and the rules applicable to all members planning to visit the pool.

We look forward to seeing you soon!

Rollingwood Pool Board of Directors
